7 February 1983

MEMORANDUM FOR: Chairman, Technology Transfer Intelligence Committee

FROM: Executive Assistant to the DDCI

SUBJECT: TTIC Resources Strategy Paper

REFERENCE: TTIC-C-113 dated 31 January 1983

1. The DDCI's reaction to the attached package (TTIC Resources Strategy Paper) was as follows:

- The TTIC should be "housed" in the DDI, not the IC Staff.
- Considering the addition of [ ] in the NFIP for FY 1984, the NFIP should be able to free up some positions for technology transfer. 25X1
- If the above seems sensible, the IC Staff should identify how many positions each program could devote to technology transfer.
- When the results of these steps are known, the attached letter to the SSCI should be revised indicating what we are doing to meet the increasing demands in the technology transfer area, without asking permission to do so.

2. When the DDCI initially read this package, he thought it contained too much detailed data to provide to the Committee. I will have to see if he has changed his mind on that when he returns from his trip tomorrow.
